

# Woodchipping the Woodland Path

Huntingdon District Council very kindly provided the woodchip which was recycled from elsewhere in the park.

With willing volunteers the woodchip was transported to the correct location using the volunteer provided wheel barrows.

# Woodchipping the Woodland Path

After two hours of hard work we successfully completed two thirds of the top pathway from Rowley Road end.

# Woodchipping the Woodland Path

*A big thank you to our group of tired, achy but happy volunteers*

We still have a considerable amount of pathway still to woodchip and will be organising further dates to complete the remaining sections. We would welcome as much help as possible as the path covers practically the full length of the park.

**Further dates will be advertised via park posters, the website and our facebook page.**
